

# Ride for a Roof!

In July, two amazing young men (Michael Bassett and James Billington) will be attempting to cycle from St Bees on the West coast of England across to Robin Hood's bay on the East, all off-road to raise funds towards our new roof appeal. The journey is approximately 210 miles and starts and ends at sea level. The overall climb in between is more than 23,000 feet. The challenge will start on 9 July and they hope to have completed the challenge within 6 days. Please pray for them and their support crew as they train and undertake the challenge.

You can follow their updates on facebook (search for **m & j's ride for a roof**) and can encourage them with a donation either online at <https://www.justgiving.com/fundraising/ride-for-a-roof> or to the Mission direct (please mark donations Ride for a Roof!) All these links are on our web-site.

Also, if you know any company who might like to sponsor them, please be in touch.
